

Customer Testimonials

Industry Leading Training & Continuing Education

"What I really liked about the Watts Learning Program is having the opportunity to learn about the variety of products Watts has to offer. It's nice to know that Watts goes far beyond backflow preventers."

– Dorian F., Fullerton, CA

"I love the fact that Watts provides all that value online for free. I run my own backflow business and it has helped tremendously. Thank you, Watts."

– Brandon V., Centennial, CO

"Thank you everybody at Watts for the great Learning programs you have put out there over the last few years. They've been good for expanding our knowledge base for both our colleagues and customers."

– Dave S., Langhorne, PA

For 150 years...

we've been helping plumbing professionals grow their knowledge and skills with industry leading product & applications-based training. We understand that life today can get busy – that's why we've tailored our learning program around our customers' needs.

Continuing Education

**Expand Your Knowledge.
Advance Your Career.**

Our Continuing Education (CE) courses are approved by the American Society of Plumbing Engineers (ASPE) and the American Institute of Architects (AIA).
