

DECLARATION

ENVIRONMENTAL POLICY

Watts Industries Bulgaria is part of the multinational company WATTS Water Technologies, with headquarter in USA, Massachusetts. Being engaged in the field of plumbing, heating and air-conditioning one of the main points of the WATTS philosophy is "To design and manufacture products that promote the comfort and safety of people and the quality and conservation of water".

In this correlation the promotion and the respect for the natural environment is inseparably connected with the main policy of the group.

As a consequence WATTS Industries Bulgaria is transferring this respect for the natural environment to all internal and external business processes of the company. We are committed to install, stabilize and improve activities to save natural resources and to prevent the environment from being polluted. Beside the production processes it is our target to involve all supplying processes and to strive for sustainable developments.

We are continuously and actively improving conditions to provide a safe, clean and healthy environment for our employees, our customers and for the community in which we operate.

Environmental management has high priority in our business organization
We are committed to respect all legal requirements and to continuously strive for improvement of our environmental relevant efforts, i.e.

- Involving all employees in the environmental philosophy and all the related processes.
- Setting measurable and achievable objectives and targets and controlling the success by internal and external measures.
- Implementing eco-efficient technologies.
- Developing new products following the sustainable principles
- Reduction of waste.
- Handling all waste materials with care and striving to input in recycling processes.
- Controlling the consumption of resources like energy, water and materials.
- We request to all business partners of the organization to follow our "environmental thinking" by continuously promoting the basic concepts.
- Communicating the environmental conviction to authorities, politics and the social networks we are living in.

We are convinced that by supporting environmental oriented way of working we will create value for our customers, the social world we are living in and for our stakeholders.

With my personal commitment to undertake the implementation of the announced policy

02.01.2020

Plant Manager:

Milen Naydenov
