

Intelligent Water Management for ANY Commercial Building

Nexa combines hardware, software, and expert customer success support to help your team identify and reduce risks, improve efficiency, and achieve sustainability within the plumbing and hydronics systems in your property. From scope and installation, to monitoring and troubleshooting, Nexa partners with your team for a lifetime of support and can even help forecast water system upgrades.

Nexa's Data Becomes Insight that Helps You:

Mitigate Risk
by protecting your property from leaks and temperature dangers like scalding and legionella

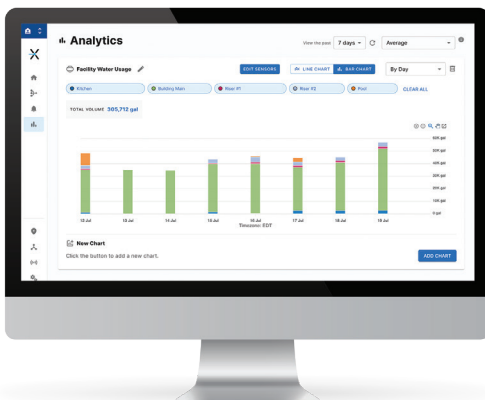

Boost Efficiency
through empowering your staff with remote sensing for temperature, pressure, and connected equipment

Drive Sustainability
by monitoring and reducing water usage with consumption visibility throughout your property

Saving Your Team Time and Money.

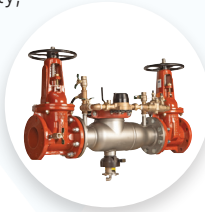

Take Your Water System from
Chaos to Clarity with Nexa.

Watts Brand Portfolio

Watts

Flow control, water safety, water filtration & treatment, drainage, and PEX plumbing products.
