

LEARNING CENTER TRAINING DESIGNED TO EXCEED YOUR NEEDS!

For more than 150 years, Watts has led the water industry in educating professionals in commercial and residential plumbing systems and solutions, providing students with opportunities to learn valuable skills and gain critical application expertise.

Watts Works Learning Centers are designed specifically for plumbing industry professionals. Our state-of-the-art facility showcases the latest in plumbing technology, products, and solutions. Our comprehensive, in-person instruction includes both classroom and hands-on experience. Every year, thousands of customers receive technical and industry training from our team of expert instructors. Whether you're new to the field or a seasoned pro, our unique program has something for everyone; offering customized training programs that fosters growth, development, and collaboration.

Woodland Learning Center

Grow Your Knowledge with Instructor Led Training at a Watts Works Learning Center

- Benefit from direct learning with industry experts specializing in Watts products and applications
- Experience hands-on learning in our pressurized water lab, designed to provide real-world scenarios and practical experience with Watts products
- Take advantage of an optional factory tour to see the manufacturing of ACVs, Backflow Preventers, and Risers, showcasing American craftsmanship

Located just 20 miles north of Sacramento, the **Woodland Learning Center** offers a dynamic, hands-on educational experience for water industry professionals. This facility blends expert-led instruction with practical training in our pressurized water lab, deepening understanding of the products and applications from the Watts family of brands. Participants can also engage in a specialized **Fire Academy** and take an optional factory tour to witness American manufacturing firsthand.

COURSE TOPICS OFFERED

- Automatic Control Valves
- Backflow Prevention
- Risers

Specialized Fire Academy Sessions

Participate in specialized sessions at our Fire

Academy, where you can learn about **AMES** and **FEBCO** products critical for controlling water flow in fire sprinkler system applications.

Woodland Learning Center Classroom

HOW TO REGISTER

To attend in-person training at our **Woodland Learning Center**, please contact your **Watts Sales Rep** or visit watts.com to identify your local rep. Additional information can also be found at watts.com/training.

There is no advanced preparation for any of our training sessions and all required materials are provided during your visit.

Students are invited to continue learning with **Watts Works Online** by creating a free account at training.watts.com.

Visitors to **Woodland** may have an opportunity to explore attractions around the Sacramento metropolitan area and engage in team building activities such as:

- Old Sugar Mill Winery
- Yocha Dehe at Cache Creek Golf
- Teal Bend Golf Club, Top Golf, and much more!
