

## LEARNING CENTER TRAINING DESIGNED TO EXCEED YOUR NEEDS!

**F**or more than 150 years, Watts has led the water industry in educating professionals in commercial and residential plumbing systems and solutions, providing students with opportunities to learn valuable skills and gain critical application expertise.

Watts Works Learning Centers are designed specifically for plumbing industry professionals. Our state-of-the-art facility showcases the latest in plumbing technology, products, and solutions. Our comprehensive, in-person instruction includes both classroom and hands-on experience. Every year, thousands of customers receive technical and industry training from our team of expert instructors. Whether you're new to the field or a seasoned pro, our unique program has something for everyone; offering customized training programs that fosters growth, development, and collaboration.

### St. Pauls Learning Center

1491 NC-20  
St Pauls, NC 28384

### Grow Your Knowledge with Instructor Led Training at a Watts Works Learning Center

- Benefit from direct learning with industry experts specializing in Watts products and applications
- Experience hands-on learning in our lab, designed to provide real-world scenarios and practical experience with Watts products
- Take advantage of an optional factory tour to see the manufacturing of Mueller Steam Specialty, Orion, and Watts products showcasing American craftsmanship

Located in southeastern North Carolina, the **St. Pauls Learning Center** offers a dynamic, hands-on educational experience for water industry professionals. This facility blends expert-led instruction with practical training in our hands-on lab, deepening understanding of the products and applications from the Watts family of brands. Participants can also take an optional on-site factory tour to witness American manufacturing at its finest.
