

LEARNING CENTER TRAINING DESIGNED TO EXCEED YOUR NEEDS!

For more than 150 years, Watts has led the water industry in educating professionals in commercial and residential plumbing systems and solutions, providing students with opportunities to learn valuable skills and gain critical application expertise.

Watts Works Learning Centers are designed specifically for plumbing industry professionals. Our state-of-the-art facility showcases the latest in plumbing technology, products, and solutions. Our comprehensive, in-person instruction includes both classroom and hands-on experience. Every year, thousands of customers receive technical and industry training from our team of expert instructors. Whether you're new to the field or a seasoned pro, our unique program has something for everyone; offering customized training programs that fosters growth, development, and collaboration.

North Andover Learning Center

815 Chestnut Street
N. Andover, MA 01845

Grow Your Knowledge with Instructor Led Training at a Watts Works Learning Center

- Benefit from direct learning with industry experts specializing in Watts products and applications
- Pressurized water labs for real-world, hands-on experience
- Working mechanical rooms showcasing the Watts family of products in action
- 3 modern classrooms accommodating 50+ students
- Take advantage of an optional tour of the Franklin, NH foundry and manufacturing facility

Located just 20 miles north of historic Boston, **North Andover's** state-of-the-art learning center offers a worldclass hands-on experience to supplement classroom instruction. Participate in real-world demonstrations in our pressurized water lab and see products from the Watts family of brands in action in our working mechanical room. Choose from a variety of courses and take an optional factory tour in Franklin, NH to experience American manufacturing at its best.
